

Geo Attendance App

Client Proposal Screen Flow

This diagram shows how the developed pages connect through sign-in, check-in/check-out states, bottom navigation, class selection, report tabs, and profile actions.

Navigation Notes

- Login opens the Home Dashboard after valid teacher credentials.
- Home supports separate Check In and Check Out states for the teacher workday.
- Bottom navigation links Home, Attendance, Reports, and Profile.
- Attendance Classes opens subject cards. Selecting Computer Class opens the Student Attendance list.
- Student Attendance supports Present/Absent marking, Save Draft, and Submit. Submitted records become locked.
- Reports provides Daily, Weekly, and Monthly analytics plus Subject Wise attendance.
- Profile contains teacher information and account actions such as notifications, leave, settings, and logout.

Login Screen

Teacher enters email and password, then signs in to reach the Home Dashboard.

Home Dashboard

Shows work location, check-in/check-out controls, and monthly attendance summary cards.

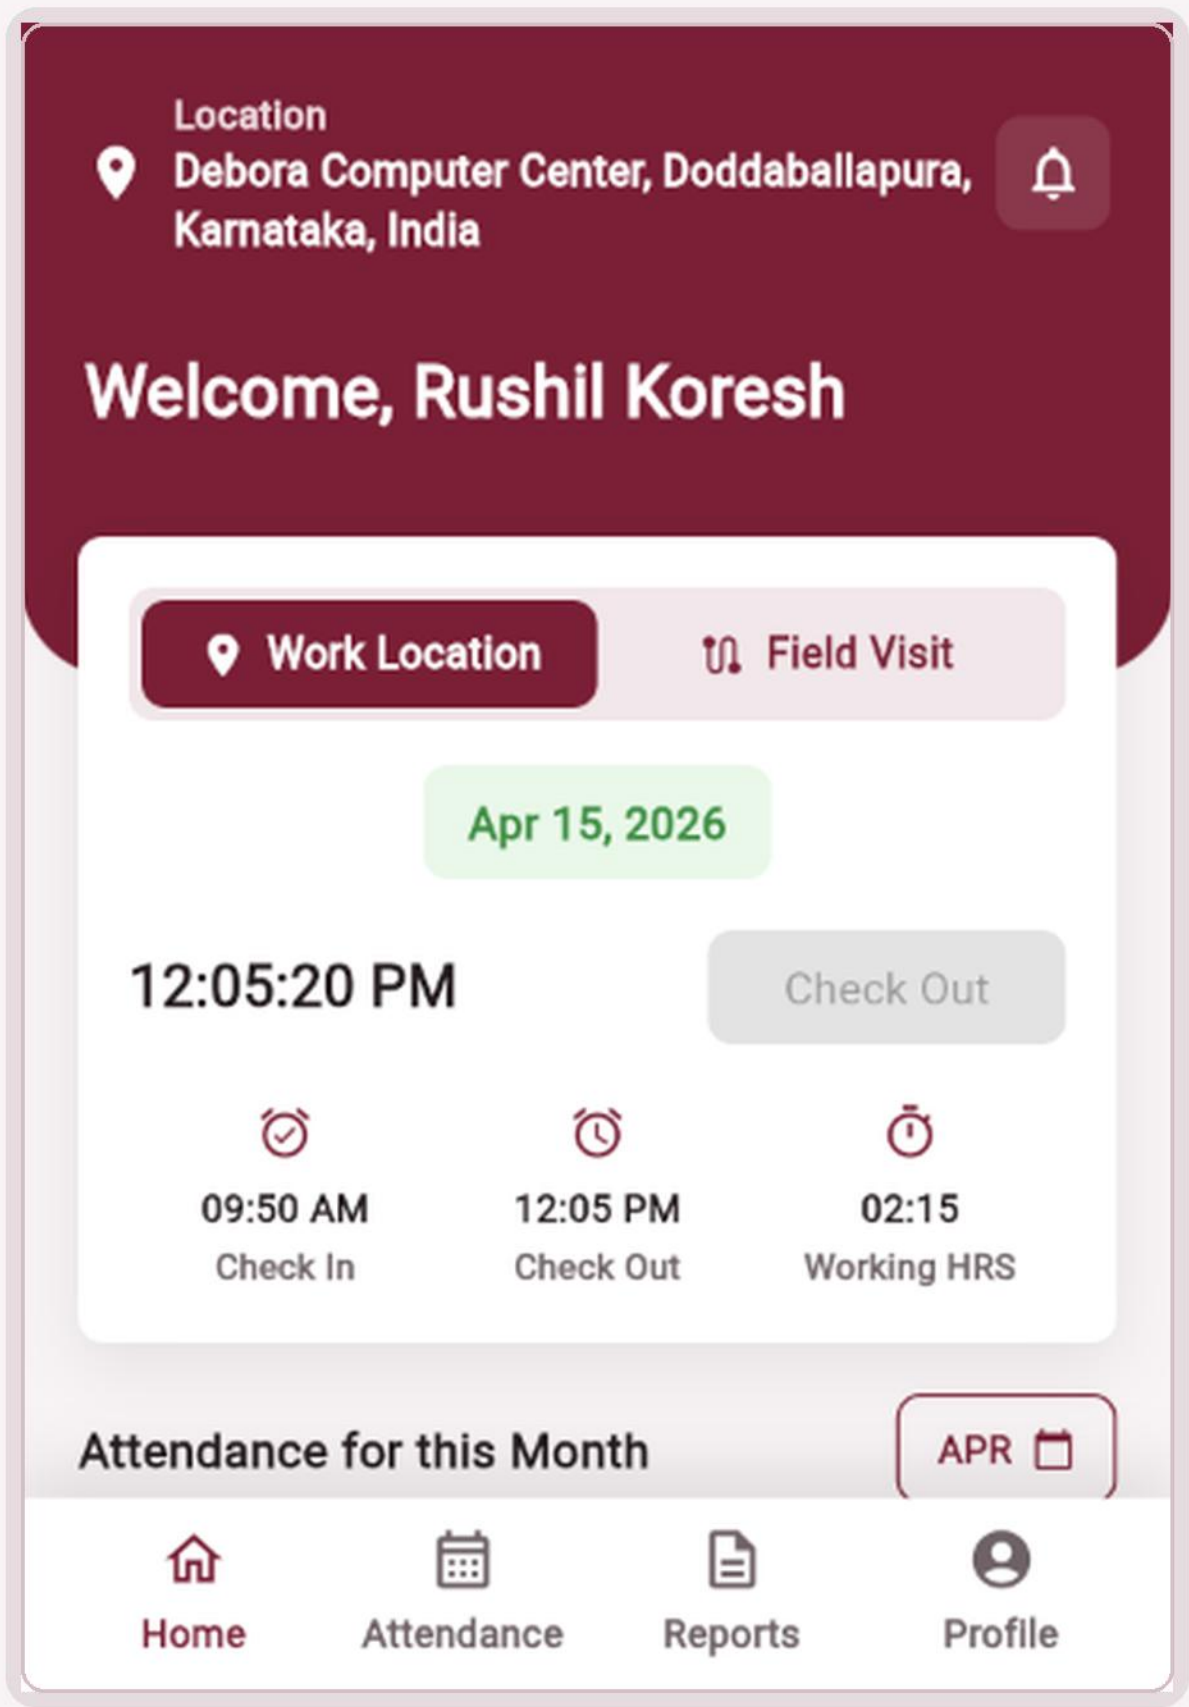

Home - After Check In

After tapping Check In, the app records the check-in time and changes the main action to Check Out.

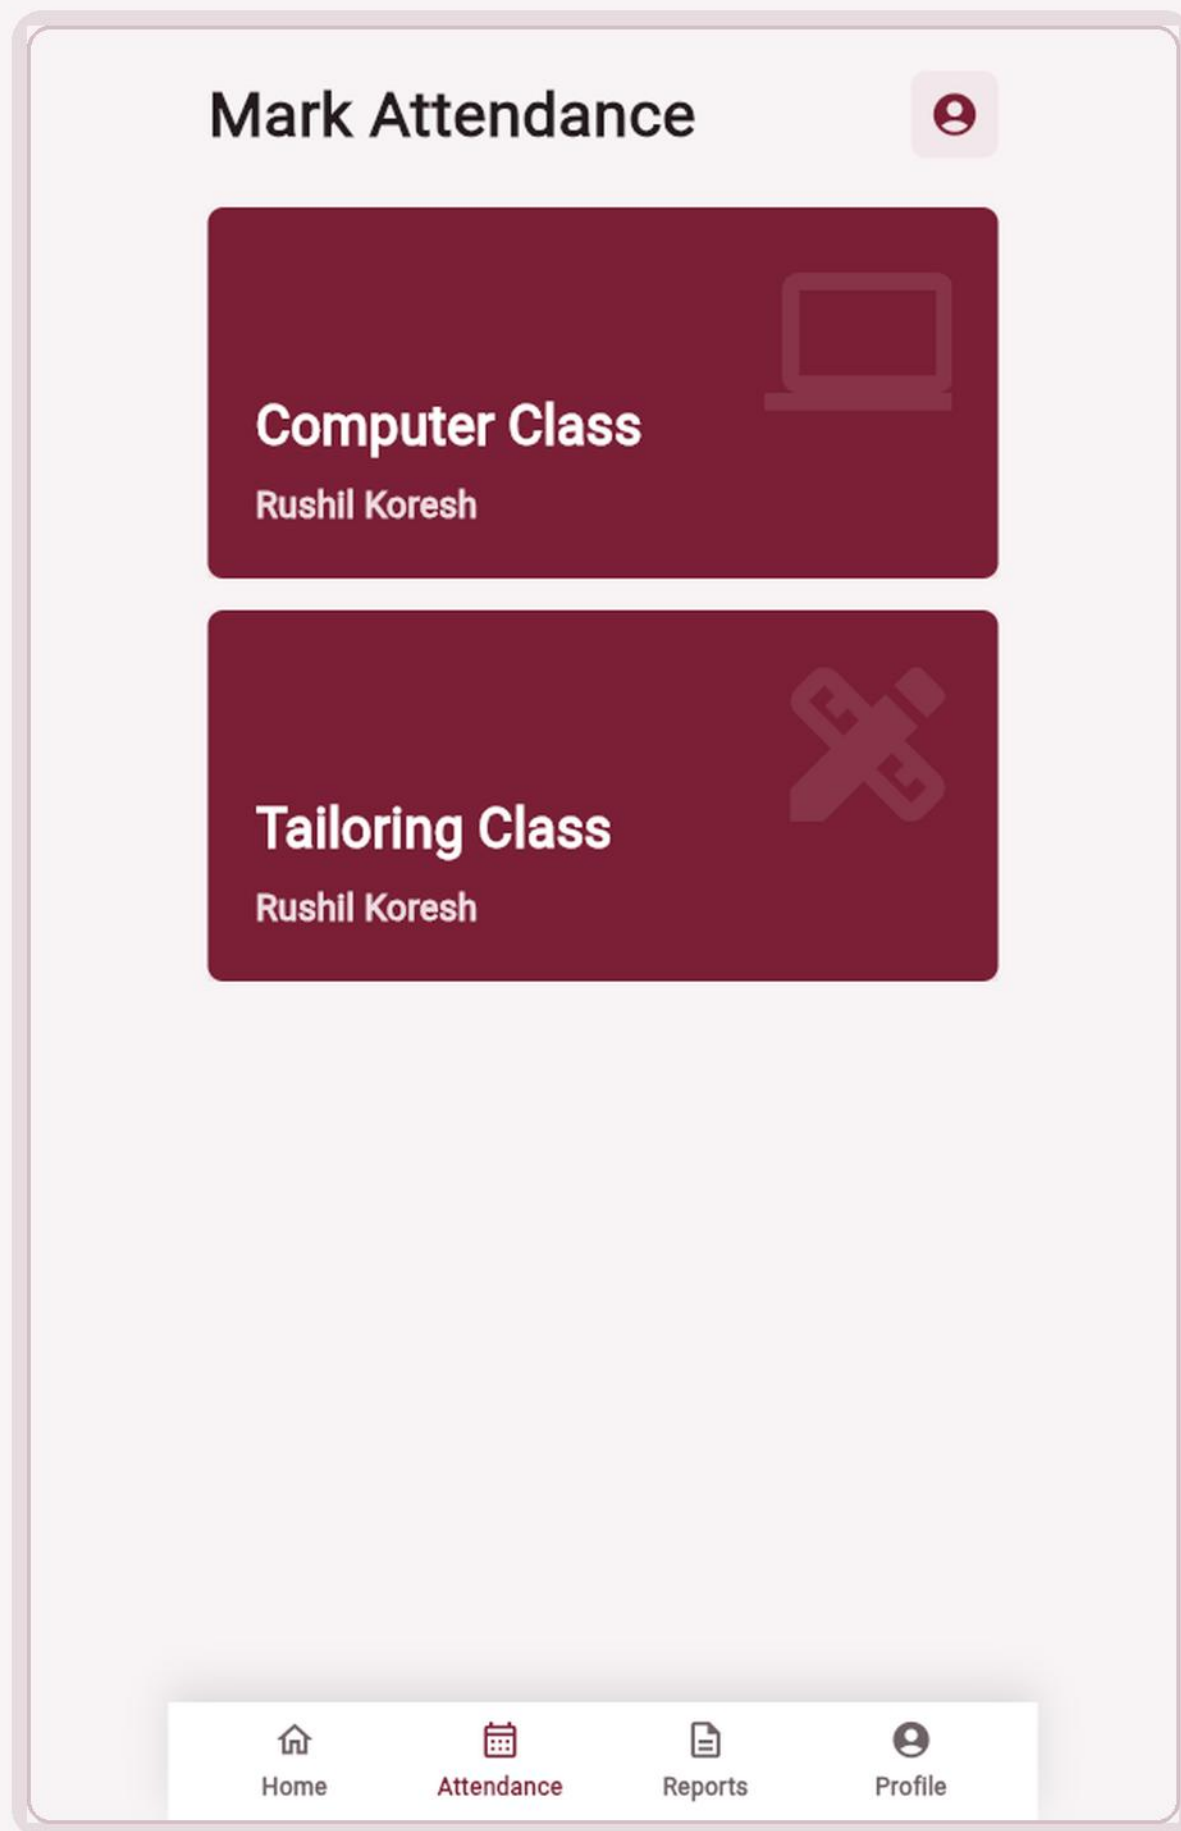

Home - After Check Out

After tapping Check Out, the app shows check-in, check-out, and total working hours for the day.

Attendance Classes

Opened from the Attendance tab. The teacher selects a class such as Computer Class or Tailoring Class.

Student Attendance

Opened by selecting a class. Each student can be marked Present or Absent.
